Dasure is an online service specialising in intellectual property. The filings made on Dasure's platform enable the applicant to obtain proof of anteriority and integrity of the deposited intellectual creations. This certificate was automatically sealed by an electronic seal and simultaneously time-stamped by a qualified electronic time-stamp token issued by Cryptolog International, a qualified Certification Authority (CA) ([European List of Trusted Lists](#)). The integrity of the deposited files is verified with a digital fingerprint, calculated according to the SHA-256 hash algorithm, the international standard for computing integrity verification. Each Dasure's Certificate is then anchored in blockchain to allow public integrity verification at any time.
